

Team Working Agreement

Communication

We will communicate primarily through Discord (text in emergency situations). We will respond within 24 hours, including on weekends. If we are unable to work immediately or talk for a more extended period of time, we will let other team members know beforehand or when prompted. We will also be respectful in all of our interactions as we all have different backgrounds and experiences. We will do our best to be helpful to each other and non-judgmental.

Meetings

We will meet on Tuesdays/Thursdays at 4pm at either SNE or McHenry. We will also do one catch up over the weekend to check how progress on the sprint is going. If a team member is unable to attend one of the meetings, they will let other team members know as soon as possible in order to reschedule or find a way to catch said member up.

Tasks

Each team member is responsible for the task they are assigned. We will assign tasks during sprint planning in our Tuesday Meetings. If someone is stuck or is unable to complete a task, they will reach out as soon as possible in order for other team members to be able to pitch in and help.

Conflict

If there is a disagreement in how to approach a problem/solution for a task, we will either take a majority vote. If a majority vote is not possible, we will default to the project owner (Richard). For all design choices and user story-related issues (not task issues), we default to Richard's choice.

Quality

We will refer to our Definitions of Done documents before moving a user story in our Scrum Board. Since review is required, at least 2 people should be involved and aware of this process.
